EXPERIENCE

Ministry of Health Jan 2021 – Dec 2021
ICT technician, NYSC FCT Abuja

- Provided direct knowledge and training on using Excel efficiently, improving staff members' skills.
- Played a crucial role in the pension office, aiding in the retirement process of over 100+ staff members.
- Worked closely with different departments to understand their technology needs and provide solutions.
- Collaborated with network administrators (Galaxy Backbone) to ensure a stable and secure network environment.

International Management and Finance Institute Academy Feb 2020 – Aug 2020
Software Engineer, Intern Akwa Ibom, Uyo

- Collaborate with senior developers and designers to implement responsive and visually appealing user interfaces.
- Contribute to the creation of new features and functionalities on the frontend. <https://www.imfiacademy.edu.ng/>
- Ensure web applications are optimized for speed, performance, and accessibility.
- Gained experience in agile development methodologies and sprints.

PROJECTS

Personal Website: <https://www.priestlyzipcode.com> (for additional information and projects)

[Hunt Amazon Finds](#) | Node JS, React, Bootstrap, Vercel

- Engineered a dynamic web application called "Hunt Amazon Finds" by harnessing the power of Node.js, React, and Bootstrap. This application provided users with an interactive platform to explore curated Amazon products.
- Developed the application's architecture with scalability in mind, enabling "Hunt Amazon Finds" to accommodate increased user traffic and future feature expansions.
- Designed a responsive and visually engaging user interface using the Bootstrap framework. Implemented responsive design principles to ensure optimal display on devices of varying sizes.

SKILLS

Languages: TypeScript, JavaScript, Sass, HTML/CSS.

Developer Tools: Git, Cloudinary, Firebase, Vercel, MongoDB, WordPress.

Interests: Global Impact, Collaboration, User-Focused Creativity, Responsive Design, Basketball.

LEADERSHIP / EXTRACURRICULAR

Co-founded and facilitated workshops at the ACC – a student led STEM club at Gregory University
